FOR IMMEDIATE RELEASE

Kubota Image Tools Moves to New Headquarters

Kubota Image Tools, Kubota Photo Design, AsukaBook USA and Red Boot Design are now located together in one convenient brand new location

Bend, OR (June 13, 2008) – Kubota Image Tools is pleased to announce its relocation to brand new office space in Bend, Oregon. More than doubling the company’s original office size to 5,000 square feet, Kubota Image Tools, Kubota Photo Design, AsukaBook USA and Red Boot Design are now located together in a beautiful new office building only a few miles from their original locations. In addition, Kubota Image Tools announces an Open House Party on Friday, June 20, 2008, from 5:30 – 7:30pm (PST).

“My wife Clare and I have always dreamed of building and creating our own space,” said Kevin Kubota, Idea Man of Kubota Image Tools. “It was such a thrill to be able to see our dream come true right before our eyes. We think it is important to have the place where you spend most of your days to be creative and inspiring and we feel we have done that for our staff. We fell in love with the location and style of this new building. This new space feels very ‘us’,” added Kubota.

Kubota Image Tools is now located at 19855 4th Street, Suite 105, Bend, OR 97701 (corner of Cooke St. and 4th St.). There will be tours of the new building, live music, drinks and coffee during the June 20th Open House Party.

About Kubota Image Tools

Kubota Image Tools (www.kubotaimagetools.com) grew from the digital experience of Kevin Kubota who began pioneering the field of completely digital wedding photography in the 1990s. As one of the first photographers to master digital imaging, Kevin became inspired to share his experience and natural teaching ability with other photographers by founding the original Digital Photography Bootcamp™ which consistently sells out. He has successfully trained thousands of photographers to make the digital transition and continuously empowers existing digital photographers with new, effective workflow ideas and outstanding Photoshop® techniques.
