

## onOne Software Ships QX-Tools Pro 7 for QuarkXPress 7

*The popular collection of XTensions for QuarkXPress incorporates several new features at a special introductory price*

**Portland, OR (November 16, 2006)** – Independent software developer onOne Software, Inc. announced today the immediate availability of QX-Tools Pro 7, the most popular collection of XTensions available for QuarkXPress. The new update will be compatible with QuarkXPress 7 and will include several new features as well as enhancements to existing features. QX-Tools Pro 7 is available at a special introductory price of \$99.95 through March 31, 2007. After March 31, 2007, QX-Tools Pro 7 will be offered at the regular price of \$159.95. Users who purchased the previous version of QX-Tools Pro on or after May 24, 2006 will be entitled to a free download upgrade. Existing users of any version of QX-Tools Pro can upgrade to QX-Tools Pro 7 for only \$69.95.

QX-Tools Pro 7 is a must-have collection of QuarkXPress XTensions for users of all skill levels and includes the following new features:

---

- **QX-Find-Change** – allows users to queue up several find-change commands into a single process.
- **QX-SuperSelect** – a dis-contiguous selection tool that provides the ability to choose multiple text selections that are not in a single contiguous selection and then perform a change to the selected text.
- **QX-Underline** – allows users to control the underline offset including consideration of descenders.
- **QX-Tips & Tricks** – provides users with new tips and tricks for QuarkXPress 7 from QuarkXPress Guru, Jay Nelson.
- **QX-WYSIWYG** – provides users with a “What You See Is What You Get” font menu directly in QuarkXPress 7 enabling users to view fonts in their own typeface.
- **QX-DragNDrop** – allows users to place items into a QuarkXPress 7 document via a drag and drop from the Mac OS X Finder.
- **QX-Shortcuts** – allows users to create their own keyboard shortcut keys for any command in QuarkXPress 7.

“onOne Software is focused on helping users get their work done in the most efficient manner possible so they can go home and enjoy their lives,” said Craig Keudell, president of onOne Software. “As with previous versions, this new release of QX-Tools Pro 7 helps users work smarter, not harder.”

“Every release of QX Tools Pro is eagerly anticipated by thousands of Quark customers and we are very excited that onOne Software has released an updated version for QuarkXPress 7,” said

Scott Allan, director of marketing, Quark. “Upgrading now to QX Tools Pro 7 and QuarkXPress 7 offers customers unprecedented productivity gains—at a price not seen previously.”

**About onOne Software**

onOne Software develops time-saving software solutions for professional and advanced amateur photographers in the digital photography and graphic design industries. onOne Software solutions have been created to help photographers spend more of their time behind the camera taking pictures instead of the computer workstation. Such solutions include a wide range of easy-to-use plug-in enhancements for Adobe® Photoshop®, Photoshop Elements and QuarkXPress®.

onOne Software delivers the highest quality software products to users by working with industry leaders and continuing to develop core technologies for professional photo and desktop publishing solutions on both Macintosh and Windows operating systems. Founded in 2005, onOne Software is a privately held company located in Portland, Oregon. For additional information, visit [www.onOnesoftware.com](http://www.onOnesoftware.com) or call 1-888-968-1468.

**About Quark**

Quark Inc. ([www.quark.com](http://www.quark.com)) is an innovative software company providing design, production, and collaboration solutions that are transforming the business of creative communications. Quark has provided award-winning software for professional publishers since its flagship product, QuarkXPress, changed the course of traditional publishing. Founded in 1981, Denver-based Quark Inc. is privately held.
