

**FOR IMMEDIATE RELEASE**

## **onOne Software Announces Photoshop® CS3 Compatibility for All Software Plug-ins**

*Free upgrades will be available shortly after commercial availability of Photoshop CS3*

**Portland, OR - December 19, 2006** - onOne Software, Inc., announces today that they will offer free Photoshop CS3 compatibility updates to their Photoshop plug-ins PhotoFrame Pro 3, Intellihance Pro 4 and Mask Pro 4 software. Users who purchase Genuine Fractals 4.1 or Genuine Fractals Print Pro 4.1 on or after December 18, 2006 qualify for a free upgrade to Genuine Fractals 5 and Genuine Fractals Print Pro 5 respectively, which will be compatible with Photoshop CS3.

“We’ve been hard at work for the past year upgrading our core products for Adobe® Photoshop such as Mask Pro 4 and PhotoFrame Pro 3. As part of that effort we’ve begun taking the necessary steps to make sure our Photoshop plug-in products will be compatible with Photoshop CS3 upon its launch,” said Craig Keudell, president of onOne Software. “Our goal at onOne Software is to provide our customers with the most advanced digital imaging software products that allow them to spend more time behind their camera’s lens taking pictures and less time sitting in front of their computer screen. We wanted to make these compatibility updates free as a way of saying thank you to our customers who continue to support us.”

Upgrades from previous versions of each product to the most recent version are available from onOne Software ([www.ononesoftware.com](http://www.ononesoftware.com)) or an authorized reseller. The Photoshop CS3 compatible updates will be available via download from the onOne Software Web site ([www.ononesoftware.com](http://www.ononesoftware.com)) shortly after Photoshop CS3 is commercially available in 2007. Users who require a new software CD update can purchase a replacement for \$9.95.

### **About onOne Software**

onOne Software develops time-saving software solutions for professional and advanced amateur photographers in the digital photography and graphic design industries. onOne Software solutions have been created to help photographers spend more of their time behind the camera taking pictures instead of the computer workstation. Such solutions include a wide range of easy-to-use plug-in enhancements for Adobe® Photoshop®, Photoshop Elements and QuarkXPress®.

onOne Software delivers the highest quality software products to users by working with industry leaders and continuing to develop core technologies for professional photo and desktop publishing solutions on both Macintosh and Windows operating systems. Founded in 2005, onOne Software is a privately held company located in Portland, Oregon. For additional information, visit [www.ononesoftware.com](http://www.ononesoftware.com) or call 1-888-968-1468.
